Elizabeth,

As discussed during our meeting last week, I have attached to this email copies of the Air Emission License amendment request we sent to the MEDEP in response to the NOV's for our Searsport and South Portland facilities.

In addition, copies of the final amended Air Emission License are now available online at the following hyperlinks:

Air emission license amendment [A-179-71-O-M](#) for Sprague Operating Resources LLC (South Portland)

Air emission license amendment [A-97-71-M-M](#) for Sprague Operating Resources LLC (Searsport)

I would also like to reiterate our gratitude to you and your fellow team members for taking the time to meet with us and listen to our thoughts on each of the NOV's. Although we find ourselves having different viewpoints on many of the details outlined in the NOV's, I am confident we can continue to work together to find common ground and innovative solutions that meets the needs of both the EPA and Sprague.

We also discussed providing you with details around our vapor pressure test sampling protocol, I will check on our progress to get this data to you as quickly as possible. If you have any questions regarding the attached information or the information provided during our meeting, please do not hesitate to contact me.

Best regards,

Jay Leduc
Director of Health, Safety, and Environment (HSE)
